

Sonoma Valley Family Therapy
Job Opportunity
Licensed Clinician

Job Summary:

You are invited to apply to join our expanding collaborative therapy practice. While under the guidance of the Licensed Directors (LMFT's), the Clinician is responsible for providing clinically appropriate mental health services for children, adolescents, adults, families and couples.

Licensed Clinician will assess, diagnose and develop behavioral health treatment plans to address client needs. Responsibilities and duties provided by the Clinician include: behavioral health education, assessment, diagnosis, treatment planning, individual therapy, family/couples therapy, group therapy, consultation, coordination of care, and case management.

The position is initially part-time with the potential to develop into full-time. Clinical pay rate set of \$35-\$50 per hour (DOE) with \$15 per hour for administrative time. In person capacity to see clients required.

Minimum Qualifications:

- Education: Master's Degree in counseling or other related field.
- Licensure: AMFT or APCC Registration number with the California BBS, unrestricted.
 - Pass a background check.
 - Member of a local professional organization (RECAMFT).
- To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. Reasonable accommodation may be made to enable individuals with disabilities to perform the essential functions.

Experience:

- Bilingual in Spanish and English is desirable.
- Experience providing therapy to children is desirable.
- Experience providing counseling services to individuals, families, and/or couples.
 - Demonstrated proficiency in Medi-Cal clinical documentation is preferred.

Specific Tasks/Duties Include:

- Work closely with clients and supervisors to assess client needs and provide clinically appropriate treatment, support and interventions.
- Behavioral services include but are not limited to: individual therapy, family/couples therapy, group therapy, assessment, diagnosis, treatment planning, behavioral health education, case management, support groups, and linkages to other resources.
- Provides case management support as necessary to ensure the client's medical, mental health and social service needs are being addressed and met.
- Assess for risk factors and provide appropriate crisis intervention as needed, able to seek appropriate supervision.
 - Demonstrates healthy and professional boundaries with clients and their support systems.
- Responds to client and agency communications in a timely and professional manner.

Sonoma Valley Family Therapy Job Opportunity

Specific Tasks/Duties Continued:

- Accurately completes client documentation/records within required timeframes and adheres to the applicable legal and ethical standards.
- Adheres to all ethical and legal standards as required by the profession, state and federal regulations.
 - Maintain confidentiality, while understanding and adhering to the limitations of confidentiality (i.e. mandated reporting, danger to self/others).
 - Actively engages in supervision and seeks additional support when needed.
 - Demonstrates the necessary attitudes, knowledge and skills to deliver culturally competent services and work effectively in cross-cultural situations.
 - Demonstrates good judgment, decision-making, and strong written and verbal communication skills.
- Demonstrates strong time management, organizational skills and attention to detail.
 - Other duties as assigned.
